

SBB Applicant Experience Documentation

LifeSouth Community Blood Centers

Applicant: _____

Please indicate (√) your level of proficiency with the following procedures according to the key blow. **Do not include tests run in school or in a workshop.** If it has been more than a year since last performed, list the last year it was performed (LYP).

Expert = Performed daily; **Proficient** = Performed weekly-monthly; **Novice** = Performed rarely or never.

Procedure	Expert	Proficient	Novice	LYP
ABO and Rh Typing				
by tube				
by gel				
by solid phase				
Antibody screening				
Red cell phenotyping				
Direct antiglobulin testing				
Compatibility testing				
Resolution of ABO discrepancies				
Single antibody identification				
Multiple antibody identification				
Enzyme panels				
DTT/CDP treatment of cells				
Neutralization techniques				
Autoadsorptions				
Differential or alloadsorptions				
Elutions, temperature (Lui Freeze or Heat)				
Elutions, pH (ELU kit)				
Cell separation (hematocrit or hypotonic saline)				
Fetomaternal hemorrhage screen				
Kleihauer-Betke stain				
Donor blood collection				
Infectious disease testing				

Component preparation for storage (prepare FFP, platelets, cryoprecipitate)				
Component preparation for administration (pool platelets, thaw, aliquot)				
Issue blood or components				
Investigation of transfusion reactions				
HLA typing				
Molecular red cell genotyping				
Quality assurance activities (audits, validation, root cause)				
SOP writing				
Testing record review				
Training/Educational activities				
Other (specify):
